PROJECTS

Blood Donation Management System - PRC 143 Cabuyao Branch | February 2025

- Implemented core features including a donor registration form, appointment scheduling, and educational content for public awareness.
- Designed an admin dashboard to help staff manage donor information, monitor donations, and coordinate blood drive events.

Integrated Inventory Management System - DJER Drugstore | March 2025

- Integrated automated stock level monitoring, low-stock alerts, and a searchable product database.
- Created a simple, user-friendly dashboard for tracking real-time inventory and generating sales reports.

EDUCATION

Bachelor of Science in Computer Science

AI Specialization, Cum Laude

Mapúa University

2022-2026
