

ALVENDHER JOY I. FRANCISCO

Address: 148 Pag-asa St., Brgy. Third District, Jala-Jala, Rizal, Philippines
Phone: +63 919-877-3612
Email: alvendherfrancisco01@gmail.com
Website: <https://vendhee.netlify.app/>

SUMMARY

Computer Science graduate specializing in Artificial Intelligence with experience in full-stack development, UI/UX design, and machine learning applications. Skilled in building web applications, AI-powered systems, and scalable software solutions using modern development tools and frameworks.

WORK EXPERIENCE

Software Engineering Intern | Phitopolis International Corporation **June 2025 - December 2026**

- Redesigned the Phitopolis company website by creating wireframes and high-fidelity designs in Figma to enhance user experience.
- Collaborated with developers during Webflow implementation, helping ensure responsive design consistency and accurate translation of designs into production.
- Supported CMS integration and branding initiatives, including digital assets and documentation.

PROJECTS

VetFractureAI | Python, PyTorch, FastAPI, Faster R-CNN, Computer Vision **March 2026**

- Link: <https://huggingface.co/spaces/alvendherfrancisco/VetFractureAI>
- Created an AI-based fracture detection platform using Faster R-CNN to identify and classify canine and feline femoral shaft fractures from X-ray images following AO severity classification standards.

Vendhee Photobooth | HTML, CSS, JavaScript, Canvas API **June 2026**

- Link: <https://vendhee-booth.netlify.app/>
- Designed and developed an interactive photo booth web application that allows users to capture or upload images, customize filters, set photo timers, and instantly download photo strips without server-side processing.

Dosely (GLP-1 Tracker) | Base44, UI/UX Design, Product Development **July 2026**

- Link: <https://dosely-v1.base44.app/>
- Built a mobile-first MVP health and wellness application designed for GLP-1 users to manage medication schedules, track nutrition intake, monitor weight progress, and record treatment side effects.

EDUCATION

Bachelor of Science in Computer Science **Aug 2022 - June 2026**
Mapúa University

- Specialization in Artificial Intelligence
- Award: Cum Laude
- Thesis on "Detection and AO-Based Severity Classification of Femoral Shaft Fractures in Dogs and Cats Using Faster R-CNN on X-Ray Images".

ADDITIONAL INFORMATION

- Technical Skills:** Figma, Webflow, Base44, JavaScript, React.js, HTML5, CSS3, Python, Java, PHP, MySQL, PostgreSQL, Git/GitHub, REST APIs, ML, NLP, LLM, RAG
- Certifications (Coursera):** Search Engines for Web and Enterprise Data, Data Warehouse Concepts, Design, and Data Integration, Visual Elements of User Interface Design, Software Development Processes and Methodologies
